Heavy Duty Jump Starter AMG15

Jump Starter + Power Bank

12V | 700A

LED Flashlight

15000mAh | 2A

What's *JumpsPower*™ AMG15?

It is a **Powerful Jumpstarting device** with multi-functions

Heavy Duty Jump Starter

It can jumpstart a 12V vehicle as well as a dead battery of Passenger Car, Supercar, Van, 4X4, Jeep, SUV, Pickup Truck, Motorcycle, Boat, Jet Ski, ATV and Lawn Mower. Capable of jump starting multiple times and suitable for both Petrol and Diesel vehicles.

Power Bank

To charge **portable electronic devices**, such as smartphones, tablets, portable gaming system, digital cameras, camcorders, portable GPS devices, any other DC 5V powered electronic devices. With this 15000mAh high capacity battery, you can charge your smartphones multiple times. With 12V Output cigarette lighter connector adapter provided, you can power up other 12V device like Vacuum cleaner, Air compressor/Tyre inflator, Waxer/Polisher etc.

JumpsPower

LED Light

LED flashlight with different lighting patterns.

AMG15 – Outstanding safety protections

Winning Factors over other products in market:

1) Dual Reversing Polarity Protection

If you accidentally connect the RED and BLACK cable clamps to the wrong polarity terminal and attempt to jump start the vehicle, the ingenious spark-proof clamp (the red indicator lights is on) will cut the power immediately to prevent injury and avoid damaging the vehicle.

2) Reverse Charge Protection

Different from other products in the market which needs to remove the jump start cable immediately after jump starting a vehicle, **AMG15** has a **Reverse Charge Protection** function which will be activated

automatically to cut the power immediately to prevent reverse charge once successfully jump started a vehicle. The red indicator light will stay on.

3) Over Voltage Protection

AMG15 has an auto turn-off feature. Once it is fully charged or the connected electronic device has been fully charged or no load to the charger, **AMG15** will automatically stop charging and enter into sleeping mode.

4) Over Discharge Protection

In general, the battery level of **AMG15** needs to be above 50% (at least 2 indicator lights stay on) to jump start the vehicle. If the battery level is below 25% (less than 1 indicator lights stay on), the red indicator lights will be on, means the Over Discharge Protection is activated to shut off the electronic circuit to prevent injury or damage of the vehicle.

5) Short Circuit Protection

6) Over Current Protection

JumpsPower

7) Overheat Protection

The product has multiple [Global Safety Certifications](#): CE, FCC, ROHS, EMC, MSDS, UN38.3 and [Global Product Liability Insurance](#) 3M USD Coverage issued by AIG.

What's in the color box:

- AMG15 x 1
- Zipper Case x 1
- Jumper Cable x 1
- Micro USB Cable x 1
- Car Adaptor x 1
- AC Adaptor x 1
- 12V Output Cigarette Lighter Connector Adaptor x 1
- User Manual x 1

Product Specifications

- Model No.: AMG15
- Barcode No.: 4897035892184
- Battery Capacity: 15000mAh (55.5Wh)
- Battery Type: Lithium-ion
- Battery Life Cycle: 1000+
- Battery Standby Time: up to 9-12 month
- Jump Start Current: 12V / 350-700A
- Output: 5V / 2A ; ; 12V Jump Start
- Input: 14V / 1A
- Operating Temperatures: - 20°C to 60°C
- Dimension: 185 x 86 x 32mm
- Weight: 595g

Recommended Vehicle Engine Displacements for Jump Starting:

Up to 12 cylinder Petrol / Diesel vehicles – 7.0 displacement (7000cc or below)

Warranty : 1-Year Warranty

SRP : \$259.00
