## New Generation Pocket Jump Starter AMG6S

**Jump Starter**  **Power Bank**  
12V | 300A LED Flashlight 6000mAh | 2A

**JumpsPower™** [New Generation- Portable Jump Starter AMG6S] is a mini Portable Jump Starter to jump start a flat car battery of 12V petrol vehicle just in seconds. No more waiting time for roadside assistance!

This new generation **AMG6S** comes with an **Ingenious Spark-proof Clamps**, this smart ingenious device brings more safety protections to users to prevent them from injury or protect vehicles from damage if there's incorrect connection of the clamps and battery terminal. It's **WORRY FREE** when using it.

**AMG6S** is a must-have gadget in your car to help out yourself. It can **Jump Start** a flat car battery just in seconds. Its small and slim design is almost **40 times lighter** than the traditional jump starter which is easy to carry around even for lady drivers.

### It's also a **Power Bank** and **LED torch**

Apart from jump starting the flat car battery, it's also a power bank which can quickly charge for all brands of portable electronic devices such as smart phones, tablets, digital cameras. With a built-in LED emergency light, **AMG6S** can be used as a torch. It is definitely value for money with its multi-function.

# JumpsPower

## 1-hour Rapid Charging

With Dual Input Charging System, **AMG6S** can be charged by **USB 2A** or **Car adaptor**. It can jump start the flat car battery **10 times on a full charge** and only take **1-hour for a smart phone to be fully charged!**

## Use of the Japan Linear Chipset

With the use of Japan Linear Chipset, the current output will be more stable. It can also facilitate the power conversion efficiency reach **up to 93-95%**. Extremely **long battery standby time** reach **up to 3-6 months**.

## AMG6S – Outstanding safety protections

### Winning Factors over other products in market:

#### 1) Dual Reversing Polarity Protection

If you accidentally connect the RED and BLACK cable clamps to the wrong polarity terminal and attempt to jump start the vehicle, the ingenious spark-proof clamp (the red indicator lights is on) will cut the power immediately to prevent injury and avoid damaging the vehicle.

#### 2) Reverse Charge Protection

Different from other products in the market which needs to remove the jump start cable immediately after jump starting a vehicle, **AMG6S** has a **Reverse Charge Protection** function which will be activated automatically to cut the power immediately to prevent reverse charge once successfully jump started a vehicle. The red indicator light will stay on.

#### 3) Over Voltage Protection

**AMG6S** has an auto turn-off feature. Once it is fully charged or the connected electronic device has been fully charged or no load to the charger, **AMG6S** will automatically stop charging and enter into sleeping mode.

#### 4) Over Discharge Protection

In general, the battery level of **AMG6S** needs to be above 60% (at least 3 indicator lights stay on) to jump start the vehicle. If the battery level is below 20% (less than 2 indicator lights stay on), the red indicator lights of ingenious spark-proof clamp will be on, means the Over Discharge Protection is activated to shut off the electronic circuit to prevent injury or damage of the vehicle.

# JumpsPower

## 5) Short Circuit Protection

## 6) Over Current Protection

The product has multiple [Global Safety Certifications](#): CE, FCC, ROHS, EMC, MSDS, UN38.3 and [Global Product Liability Insurance](#) 3M USD Coverage issued by AIG.

### **What's in the color box:**

- AMG6S x 1
- Jumper Cable x 1
- Micro USB Cable x 1
- Car Adaptor x 1
- User Manual x 1

### **Product Specifications**

- Model No.: AMG6S
- Barcode No.: 4897035892160
- Battery Capacity: 6000mAh (22.2Wh)
- Battery Type: Lithium-ion
- Battery Life Cycle: 500+
- Battery Standby Time: up to 6 month
- Jump Start Current: 12V / 150-300A
- Output: 5V / 2A ; 12V Jump Start
- Input: 5V / 2A
- Operating Temperatures: - 20°C to 60°C
- Dimension: 135 x 78 x 15mm
- Weight: 210g

### **Recommended Vehicle Engine Displacements for Jump Starting:**

- Up to 6 cylinder Petrol vehicles – 3.5 displacement (3500cc or below)
- Up to 4 cylinder Diesel vehicles – 2.0 displacement (2000cc or below)

**Warranty :** 1-Year Warranty

**SRP :** \$149.00
