V8 5.0L
5000cc Petrol / 3000cc Diesel

4WD Jump Starter AMG8S

Jump Starter + Power Bank

12V | 500A

LED Flashlight

8000mAh | 2A

What's **JumpsPower™** AMG8S?

It is a **Powerful Jumpstarting device** with multi-functions

4WD Jump Starter

It can jumpstart a 12V vehicle as well as a dead battery of Passenger Car, Van, 4X4, Jeep, SUV, Pickup Truck, Motorcycle, Boat, Jet Ski, ATV and Lawn Mower. Capable of jump starting multiple times and suitable for both Petrol and Diesel vehicles.

Power Bank with Dual USB Output

To charge **portable electronic devices**, such as smartphones, tablets, portable gaming system, digital cameras, camcorders, portable GPS devices, any other DC 5V powered electronic devices, you can charge your smartphones multiple times.

LED Light

LED flashlight with different lighting patterns.

JumpsPower

AMG8S – Outstanding safety protections
Winning Factors over other products in market:

1) Dual Reversing Polarity Protection

If you accidentally connect the RED and BLACK cable clamps to the wrong polarity terminal and attempt to jump start the vehicle, the ingenious spark-proof clamp (the red indicator lights is on) will cut the power immediately to prevent injury and avoid damaging the vehicle.

2) Reverse Charge Protection

Different from other products in the market which needs to remove the jump start cable immediately after jump starting a vehicle,

AMG8S has a **Reverse Charge Protection** function which will

be activated automatically to cut the power immediately to prevent reverse charge once successfully jump started a vehicle. The red indicator light will stay on.

3) Over Voltage Protection

AMG8S has an auto turn-off feature. Once it is fully charged or the connected electronic device has been fully charged or no load to the charger, **AMG8S** will automatically stop charging and enter into sleeping mode.

4) Over Discharge Protection

In general, the battery level of **AMG8S** needs to be above 75% (at least 3 indicator lights stay on) to jump start the vehicle. If the battery level is below 50% (less than 2 indicator lights stay on), the red indicator lights of ingenious spark-proof clamp will be on, means the Over Discharge Protection is activated to shut off the electronic circuit to prevent injury or damage of the vehicle.

5) Short Circuit Protection

JumpsPower

6) Over Current Protection

The product has multiple [Global Safety Certifications](#): CE, FCC, ROHS, EMC, MSDS, UN38.3 and [Global Product Liability Insurance](#) 3M USD Coverage issued by AIG.

Product Specifications

- Model No.: AMG8S
- Barcode No.: 4897035892201
- Battery Capacity: 8000mAh (29.6Wh)
- Battery Type: Lithium-ion
- Battery Life Cycle: 1000+
- Battery Standby Time: up to 6-9 month
- Jump Start Current: 12V / 250-500A
- Output: 5V / 2A ; 5V / 1A ; 12V Jump Start
- Input: 5V / 2A
- Operating Temperatures: - 20°C to 60°C
- Dimension: 137 x 70 x 25mm
- Weight: 330g

Recommended Vehicle Engine Displacements for Jump Starting:

- Up to 8 cylinder Petrol vehicles – 5.0 displacement (5000cc or below)
- Up to 6 cylinder Diesel vehicles – 3.0 displacement (3000cc or below)

Warranty : 1-Year Warranty

SRP : \$199.00
